PRIMERA ACTIVIDAD

Lee el texto, tradúcelo al español, responde las preguntas del 1 al 5 encerrando la respuesta correcta.

- 1 You've decided to add a pet to your family – but what pet is right? **I think** that the person who said that a dog is "man's best friend" is absolutely right. In my opinion, dogs make perfect house pets.
- 2 **First of all**, dogs make wonderful companions. They always show their happiness as soon as their owner walks through the door, by wagging their tail and jumping up and down excitedly. They are playful and extremely loyal to their owners, so they are good company for the elderly and for children.
- 3 **Furthermore**, trained dogs are useful to their owners. They are easy to train as watchdogs to guard your house and family, making you feel safe and secure. They can also be trained as guide dogs for the blind. They can be taught all sorts of tricks – even to collect the morning newspaper!
- 4 **On the other hand**, dogs need a lot of attention. They need to be fed and brushed, and taken for their daily walk or regular visit to the vet. **However**, this is a small price to pay in exchange for their friendship and loyalty.
- 5 **All in all**, although having a dog can be tiring, I believe that they are the best pets. Spending a little time with your dog every day will certainly win you a "best friend" for life.
